

## **EcoMack**

In 2012, the student led environmental club EcoMack was successfully restarted, under the leadership of the two Environment and Sustainability captains, and has continued to grow since then.

EcoMack is for those students and staff interested in learning about, and taking action on, issues concerning the Environment and Sustainability, both on the local and larger scale levels.

During the course of the school year, EcoMack holds numerous school events to encourage environmental awareness and responsibility. EcoMack events and programs held in the past include but are not limited to:

- Sustainability Week
- Tree Planting Day in support of National School Tree Day
- Mobile phone recycling drives to support Zoos Victoria's They're Calling On You program
- Nude Food days
- Worm farm workshops
- Community gardening
